PETA 2026

LIVING LEGEND *Award*

PETA recognises and thanks

Sir David Attenborough

for a lifetime of extraordinary storytelling that has opened hearts and minds to the truth that every animal is some*one*, not some*thing* – a sensitive individual with their own personality, relationships, and life that matters to them.

By championing plant-based eating, he has also reminded millions that appreciating the natural world is not enough – we must also change how we live to protect it.
