

Dear Sir/Madam

I'm writing to tell you that the orcas in Sea World, which is a theme park in Florida, are in danger. I'm offering you chance to save the orcas in Sea World today.

Do you know how the whales are treated?

Do you know what the whales are doing when they aren't performing?

Would you like it if you were taken away from your family?

When the orcas are in shallow pools they get sun burnt they cover up their sun burns black zinc oxide.

Did you know orcas only live in Sea World for 13 years and live in the wild for 30.

When you go to Sea World and see the orcas you think they look fine but actually their fins show you how healthy they're, if they're down that means that they're not healthy.

Please can you help us close Sea World's amusement park and empty the tanks!
