Dear Councillor Hill,

Following the recent crash on the A16 bypass in Cowbit, Lincolnshire, in which 20 pigs were killed after the lorry carrying them overturned, I am writing to ask if you'd please permit PETA to place a [memorial](#) near the accident site to commemorate the lives lost in this deadly accident.

We hope our memorial will let people know that the best way to prevent crashes such as this one is to go vegan, because pigs shouldn't have to make terrifying trips to abattoirs at all. It will also remind lorry drivers of their responsibility to the thousands of animals they haul every year as well as to the motorists whose lives are endangered when a lorry crashes.

Thank you for your consideration.

Yours sincerely,

Kirsty Henderson
