

Lesson Plan 2: Me and My Pal

We are not alone on this planet. There are millions of animals who share this world with us too, and some of them live in your street. Take a look at the animals living near you. Maybe you live in a city or maybe you live in the country. It doesn't matter! Animals are everywhere ... just take a look.

Once you have thought about all the animals living near you, choose one. You might choose a cat or a dog, a sheep or a chicken, a fox or a rabbit. You might choose a different animal. Now think hard about what you and that animal have in common. Make a list of 15 things that you think shows that the two of you are alike (we have given you the first one). When your teacher says each one is right, tick the box!

How many ticks did you get?

Me	My Pal
