

PETA *Presents*

Best Mum in the *Hen-tire* World

Someone thinks you're a *clucking* wonderful mum! This PETA Present given in your honour helps mother hens stay with their chicks and promotes compassion for all living, feeling beings.

I've made a gift to PETA in your honour. The group's vital work to oppose speciesism and promote animal rights is changing the world and ending the hideous suffering that animals endure for experimentation, food, clothing, and entertainment.

Thank you for everything you do to help animals.
